Last Thursday and Friday thirteen pupils reported at Blue Mound to take the 9th grade examination. Of this number nine passed the examination and will receive their diplomas from the state board. Prof. Turner, principal of Bethany was the assistant examiner.

Blue Mound has five graduates this year from the 8th grade. They are: Ernest Ferguson, Donald Springsteen, Chas. Sazman, Eva Clark and Ople Summers.

We desire to call attention to our exercises during the last week of school. Thursday night, May 5th, the pupils will give a farce entitled "The Mirth Provoking Schoolroom." There will also be several musical numbers on this program. The program will begin at 8 p. m.

Friday May 6th, will be the last program of the Blue Mound Pupils' Literary Society. This program will begin at 2:30 p. m. Among the numbers will be a 30 minutes drill and chalk-talk by 14 girls. There will also be a dialogue by six girls.

Saturday, May 7th, is the date for the second annual picnic. There will be dinner on the grounds, a ball game between Blue Mound and Elmwood. There will be swings for the children and hunting and fishing for the older persons. The picnic will be held on Clear Creek at Mr. Bare's farm.

Sunday May 8th, at 3:00 p. m., Rev. Dewitt Sankey will preach the baccalaureate sermon.

Every one is requested to be present at these events.

## One Conductor Who was Cured

Mr. Wilford Adams is his name, and he writes about it—"Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It gave me more relief than any medicine I had ever used, and it will do all you will claim in cases of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. For sale by F C Tracy

### "INSURANCE SAFETY"

gasoline stoves.

Why, for the sake of a dollar or so, should one buy a cheap, poorly constructed gasoline stove? Why, when an "INSURANCE" is a guarantee against accidents?

Let us tell you about it. It's all in the mechanism. The "INSURANCE" is safe because it has a patented automatic "cut-off" to close the valves in case they are accidentally opened or the burner flame is blown out. When cold—that is, stove is not in use—the stand pipe is full of liquid gasoline. The float is at the top and holds the cut-off tight in seat. Gasoline cannot escape.

To put stove in operation, burner is generated by an asbestos torch—stand pipe is heated, gasoline expands, float drops, cut-off opens, gasoline can now flow to burner. When flame is turned or blown out, stand pipe quickly cools, gasoline condenses, rises in tube, carries up float and closes cut-off. Valve is now absolutely locked. Isn't that simple and safe?

### Why Not To-Day?

Rather early, isn't it?  
To begin thinking and planning for Easter?  
But after resolved into a matter of weeks and days, Easter is not so far off, is it?  
And then, too, there is that new dress  
And new hat  
To be looked after  
As Easter approaches.  
And—well, everybody wants photographs at Easter.  
So why not be photographed earlier this year?  
Why not be photographed now, while you have the time  
Add have it over?  
Did you ever realize, too, that a dozen portraits of yourself  
Make twelve charming Easter cards  
Or gifts—  
Relieving you of twelve thought troubles  
And carrying to the recipients the personal note altogether lacking in a more expensive gift?
